Career Objective

To leverage my expertise in front-end development and passion for creating engaging user experiences to contribute to a dynamic and innovative tech company. Seeking a position that allows me to utilize my skills in HTML, CSS, and JavaScript to build user-centric web applications and grow professionally in a collaborative and challenging environment.

Technical Skills

HTML

- Proficient in writing clean, semantic HTML code for building webpages.
- Experience in creating well-structured HTML markup for improved accessibility and SEO
- Skilled in using HTML5 features and elements to enhance the user experience.
- Familiarity with responsive web design principles and creating mobile-friendly HTML layouts.
- Knowledge of HTML form validation and working with form elements.
- Experience in optimizing HTML code for improved performance and loading speed.

CSS

- Strong proficiency in writing CSS code to style and design webpages.
- Experience in creating responsive and mobile-friendly layouts using CSS media queries.
- Skilled in applying CSS frameworks (e.g., Bootstrap) to create consistent and visually appealing designs.
- Experience in implementing CSS grid and flexbox layouts for efficient and flexible webpage structures.

JavaScript

- Experience in developing interactive and dynamic web applications using JavaScript.
 - Proficient in manipulating the Document Object Model (DOM) with JavaScript to create dynamic and responsive webpages.
 - Experience in optimizing JavaScript code for performance and efficiency.
 - Familiarity with asynchronous programming and using Promises or async/await for efficient handling of data and API requests.
-

Other Skill

Git

- Strong proficiency in using Git for version control and collaborative software development.
 - Experience in initializing Git repositories, committing changes, and managing branches effectively.
 - Proficient in using Git commands such as clone, push, pull, merge, and rebase to collaborate with team members and manage codebase.
 - Experience in using Git with remote repositories, such as GitHub or Bitbucket, for code hosting and collaboration.
-

Project

- Portfolio Website
 - Design Website
 - Developed and designed a personal portfolio website showcasing my skills, projects, and professional experience.
 - Utilized HTML, CSS, and JavaScript to create a responsive and visually appealing website.
 - Showcased my projects, skills, and achievements in an organized and visually engaging manner.
-

Work Experience 2022-2023

Apprentice Trainee (Civil Engineer) - CCL

- Assisted in estimating project costs and timelines.
 - Engaged in site engineering activities.
 - Contributed to project planning, construction, and drafting.
-
